DETAILED ACTION

Claim Objections

1. Claim 72 is objected to because of the following informalities: claim 72 should be dependent on claim 71. Appropriate correction is required.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 60, 62-64 & 67-72 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for metallized layer, self-assembled monolayer then metal salts with liquid crystal on top, does not reasonably provide enablement for functional groups with metal complexes. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims.
